

<b>HZMT-AL</b>	<b>Hazmat Awareness Level</b>	<b>8 Hours</b>
<p>The Awareness Class is designed to provide Awareness-Level Training for first responders. It is for responders who are likely to witness or discover a hazardous materials release and will initiate a response sequence by notifying the proper authorities of the release. It will concentrate on detecting a hazardous situation and making the appropriate calls to secure the scene and prevent contamination. You will also learn how to use the Emergency Response Guidebook. The OSHA 1910.120 standard outlines the minimal training required of each employee that has the potential of witnessing or discovering a hazmat incident. These individuals include firefighters, police officers, emergency medical personnel, security guards, and certain industrial workers. From informal detection methods to protective actions, your personnel will be fully informed of their responsibilities and have the knowledge to safely carry out the duties of the hazmat awareness level.</p>		
<b>HZMT-OPS</b>	<b>Hazmat Operations (no practicum)</b>	<b>16 Hours</b>
<p>The 16-hour course provides training for those personnel who respond to releases or potential releases of hazardous materials for the purpose of protecting person, property or the environment. Topics includes: basic hazard and risk assessment, proper selection of PPE, basic containment and confinement operations and decontamination.</p>		
<b>HZMT-OPS-P</b>	<b>Hazmat Operations Level with Practicum</b>	<b>24 Hours</b>
<p>The 24-hour course provides training for those personnel who respond to releases or potential releases of hazardous materials for the purpose of protecting person, property or the environment. Topics includes: basic hazard and risk assessment, proper selection of PPE, basic containment and confinement operations and decontamination. You will be expected to dress out during this course and perform the skills necessary to respond to a hazardous materials incident. IFSAC testing will be completed at the end of the course. A passing grade is necessary for certification after class completion.</p>		
<b>HZMT-TL</b>	<b>Hazmat Technician Level</b>	<b>40 Hours</b>
<p>The 40-hour course provides HAZMAT Team members with the basic knowledge and skills to take appropriate offensive or defensive action that would require level A &amp; B protection at an incident. Topics of instruction include: identification &amp; classification of materials, selection of PPE, hazard &amp; risk assessment techniques and advanced control &amp; containment operations. Students will also acquire an understanding of basic chemical and toxicological behavior as well as how to function within the Incident Command System. Instruction will include classroom and hands on exercises. Familiarity with SCBA is necessary. Students must also not have any medical problems, which would preclude them from participating in hands on exercises.</p>		
<b>HZMT-OPS-R</b>	<b>Hazardous Materials Operations Refresher</b>	<b>8 Hours</b>
<p>Refresher course for Hazardous Materials Operations course</p>		
<b>CSEPP-Decon</b>	<b>Response Phase Decontamination for CSEPP</b>	<b>8 Hours</b>
<p>This course is designed to prepare personnel (decon station personel or emergency medical personnal) to perform the functions of response phase decontamination for the Chemical Stockpile Emergency Preparedness Program.</p>		
<b>CSEPP-HC-Decon</b>	<b>Decontamination for Hospital Personnel</b>	<b>4 Hours</b>
<p>This course is designed to prepare Hospital personnel to perform the functions of response phase decontamination for the Chemical Stockpile Emergency Preparedness Program.</p>		
<b>CSEPP-PPE</b>	<b>Personal Protective Equipment</b>	<b>4 Hours</b>
<p>The purpose of Personal Protective Equipment Training is to teach individuals the proper operation, use, maintenance, and storage of the approved PPE. The Army and FEMA have approved PPE for the Chemical Stockpile Emergency Preparedness Program (CSEPP) that may be worn to protect people from harmful contaminants in the environment. This PPE also meets OSHA requirements.</p>		
<b>CSEPP-PAPR</b>	<b>Powered Air Purifying Respirator (PAPR)</b>	<b>4 Hours</b>
<p>The course is to teach individuals the proper operation, use, maintenance, and storage of the approved Powered Air Purifying Respirator (PAPR) that is approved by the Army and the Federal Emergency Management Agency (FEMA) for use by the Chemical Stockpile Emergency Preparedness Program.</p>		
<b>CSEPP-WTGU</b>	<b>Webpuff Training for General Users</b>	<b>4 Hours</b>
<p>The purpose of WebPuff Training for General Users is to make a sufficiently detailed and reliable prediction of the effects of an accidental toxic chemical agent release so that informed decisions can be made as to whether the surrounding population should seek shelter, evacuate, or do nothing in response to the event.</p>		
<b>CSEPP-HNA</b>	<b>Hose/Nossles/Appliance Training</b>	
<b>CSEPP-CPR/AED</b>	<b>CPR/AED Training for First Responders</b>	
<b>CSEPP-BBP</b>	<b>Blood Borne Pathogens Training</b>	

<b>CSEPP-WS</b>	<b>Water Supply Training</b>	
<b>CSEPP-EDP</b>	<b>Emergency and Disaster Planning</b>	
<b>CSEPP-POM</b>	<b>Pumper Operations and Maintenance Training</b>	
<b>CSEPP-DT</b>	<b>Driver's Training</b>
